2. The Chief Engineer for Irrigation was asked to send a statement of existing Permanent advances and it was received with his No.E.7211 of 21st March 1923. The statement also is enclosed for reference. My opinion for the increases proposed is given below.

3. Tumkur Division (a) No.1 Sub Division is stationed at Tumkur, the head quarters of the Executive Engineer where there is a treasury. The Sub Division Officer can submit small recoupment bills as many times as are necessary. The amount of Rs.500/- should be enough.

(b) No.2 Sub Division is at Maddagere. The increase asked for may be recommended in view of the delay caused in the transmission of the Sub Division Officers recoupment bills to the Division Office.

(c) No.3 Sub Division is at Tiptur. Rs.750/- may be recommended in view of remarks in para 3(b) above.

4. Chitaldrug Division (a) No.1 Sub Division. For

NOTE—Contn. sheet.

Serial No.

For reasons stated in para 3(a) the increase does not appear to be necessary.

(b) Nos.2 and 4 Sub Divisions may be given the increase asked for on account of the distance from the Division office and consequent delay in recoupment of bills.

5. Lower Channels Division No.1 Sub Division is at Mysore and is distant from the head quarters of the Executive Engineer. Besides, the Sub Division Office requires more money in the working season for Irrigation works. The increase may therefore be granted.

6. Upper Channels Division Nos.1 and 2 Sub Divisions The increases to permanent advances have been sanctioned temporarily up to end of 30th June 1923 by the Public Works Secretary, KrishnarajaSagara in his No. KSS.286/203 of 22nd March 1923. Audit Office was not consulted beforehand as required by Government Order No.Fl.3811-15 GF.168-19-2 of 23rd December 19. The increase of Permanent Advance to No.2 Sub Division, Akkihebbal may be allowed on account of the distance from the treasury and the Division Office, but no sufficient grounds exist for an increase of Permanent Advance to No.1 Sub Division. The Executive Engineer's and the Sub Division Offices are within a few yards of each other and the Sub Division Officer can prepare recoupment bills at short intervals get them passed by the Executive Engineer and cash them
